To Whom It May Concern:

Upsala Area School's - Team 4480 UC-Botics is beginning its seventh year in the FIRST Robotics Competition, and is in need of help and support to keep going strong! UC-Botics is a program that was created to help our students gain experience with real life troubleshooting and problem solving scenarios through a STEM (Science, Technology, Engineering, and Mathematics) extracurricular activity engaged around fun and robots! Our first five years have gone by fast, and our team has grown to new heights and achievements! As a team we have earned a number of awards including the "Rockwell Automation - Innovation in Control Award in 2017", Alliance Champions of the Northern Minnesota Robotics Conference (NMRC) - 2017, Third Place Alliance Champions of the NMRC - 2018, and Also the Judge's Award from NMRC in both 2017 and 2018. Our team has grown to new heights and bringing in new students every day!

That being said however our team is in need of financial assistance this year, and are looking for dedicated sponsors to help promote this powerful STEM initiative in our public school! **Team 4480 - UC-Botics is a 501(c)3 non-profit.** For more information on Team 4480 - Upsala Robotics, or to offer support and assisting our team, please see the attached Sponsorship Form, or contact our lead mentor and team business manager:

Curtis Robertson (Head Coach)- email: crobertson@upsala.k12.mn.us phone: 320-492-2347
Team Business Manager - email: team4480@upsala.k12.mn.us phone: 320-573-2176 x160

We implore you to check out the FIRST Robotics Competition program and how to become more involved. Please visit www.USFIRST.org to view how FIRST is an influential and inspirational event for students of all ages.

Thank you for your time and continued support in our endeavor!!

Sincerely,

Curtis Robertson
